319 E Court St,
Iowa City, IA

To whom it may concern,

I am a student currently enrolled at the University of Iowa as a third year studying sustainability science. I am also currently serving in the Iowa National Guard. I am applying for the _____ position at _____ and am drawn to this opportunity because of my passion for sustainability efforts and the intention to continue to develop my skills in this industry.

I have experience in data input skills from my time working on invoices at Engie, as well creating effective and creative communication products from my current internship as a Site Administrator from crafting our monthly newsletter and planning learning events like our Intern Lunch and Learns and Bring Your Child to Work Day, where we planned activities that would be engaging and informative for children to understand utilities and the green energy transition. In addition, my time at basic training focused on growing team working skills through many physical and mental challenges; I believe these skills transfer smoothly to the teamwork required for this position. During my time on the southwest border, I was expected to complete high-importance tasks with little supervision, and I was rewarded multiple times with awards and a promotion due to my excellence. I am expected to constantly maintain a professional bearing, talk to, and problem solve with people of all ranks in a respectful manner. I was also required to be able to clearly articulate reports and answer questions on various topics to senior leadership regularly, which demonstrates good communication skills that I can use when assisting park visitors with requests for information. Finally, I have experience painting, cleaning, and operating some power tools, and am very willing to learn other park maintenance tasks.

Thank you for considering my application. I welcome the opportunity to bring my energy, discipline, and love of the outdoors to your team. I look forward to the possibility of discussing how I can support your goals for the upcoming season.

Sincerely,
Madeline Kruse
