STUDY ABROAD

School for Field Studies Study Abroad Program, Kenya

July 2023 - August 2023

Elephants of the African Savanna

- Applied field research methods to study human-elephant conflict and conservation practices
- Worked collaboratively with a team to collect, interpret, and present data
- Completed and defended three formal research reports under academic supervision
- Adapted quickly to remote field conditions while developing cross-cultural communication skills

MILITARY EXPERIENCE

Iowa Army National Guard, Intelligence Analyst, E-5

July 2020-Current

Southern Border Mission, Southern California

October 2023 – November 2024

Intelligence Analyst, Army National Guard

- Received promotion to non-commissioned officer and multiple coins from senior leaders for excellence and mission-critical impact
- Aided military intelligence operations by completing over 20 authorization forms, researched multiple publications, utilized critical thinking to develop accurate reports, and analyzed data to identify trends
- Created an efficient tracking system for intelligence operations; improved security compliance across 25+ personnel
- Demonstrated professionalism across ranks; effectively articulated complex reports between five units and one brigade, enhancing operational clarity and ensured effective dissemination of information
- Implemented storyboard standard operating procedure, streamlining reporting practices and positively impacting communication with higher echelons

WORK EXPERIENCE

Engie, Iowa City, Iowa

Site Administrator Intern

June 2024-Current

- Utilized data input skills while reviewing financial processes including purchase orders and invoices
- Created and maintained several tracking products, including uniform cost, clearances, and parking trackers
- Collaborated with all departments to create an informative and engaging monthly newsletter
- Planned meeting details, locations, and catering for several groups in the company on a regular basis
- Organized events including Lunch and Learns and Bring Your Child to Work Day, improving moral and cross company cooperation

SKILLS

- C++ (academic), Microsoft Office, Canva, ArcGIS (introductory), military GPS/secure platforms
- Field research methods; data collection & analysis; scientific writing
- Strong written communication; briefed senior military leadership; effective teamwork under pressure
- Data input
